

PRINTED GAZEBOS

explained...

Our speciality is custom printed gazebos!

Whether you're after a simple name/messaging or logo print, to an all-over high definition dye sublimation print, our team of creatives will work with you to **bring your brand to life** and create a stunning personalised gazebo!

We cater to all budgets, offering a choice between two high-quality printing methods: dye sublimation and vinyl heat press. We often find the print method is determined by the clients requirements and budget. So we've put this handy guide together to not only explain the print methods available but to also help you complete our customisation form fully. We're here to help and our Sales team are ready to answer any questions you have.

GAZEBO PARTS & POSITIONING YOUR ARTWORK

Roof triangles and valances are the parts that make up the overall gazebo canopy.

Also an example of what can be achieved with a dye sublimation custom print gazebo.

Print Methods

VINYL HEAT PRESS BRANDING

Quick, cost-effective prints! Your artwork is printed and cut from coloured vinyl and heat press applied onto the fabric of our **stock colour** gazebos. Please note for this reason and due to the pre-stitched panels, the print area is **restricted in size**.

Prices start from as little as £50* for a single valance print, from £70* for a single roof triangle print and from £120* for a single valance AND roof triangle print to the canopy front of a standard stock colour gazebo.

When asked 'what colour gazebo do you require?' on the customisation form - please select from the choice of **standard stock colours** available for this print method.

DYE SUBLIMATION CUSTOM PRINT

Unlimited printing for stunning visual impact! All aspects of your gazebo can be printed, inside and out, with no limitations on design or colour (we can also colour match pantones). Dye sublimation gives full coverage of 100% print because the artwork is embedded onto the fabric of the gazebo before it is sewn together.

Prices start from £360* for Print Package 1 (frame + dye sub printed canopy), from £459* for Print Package 2 (frame, dye sub printed canopy + 1x full height printed single sided back wall) and from £756* for Print Package 3 (frame, dye sub printed canopy + 4x full height printed single sided walls). More options available.

*Prices quoted are based on a 3m x 3m Heavy Duty Steel gazebo and are subject to VAT.

When asked 'what colour gazebo do you require?' on the customisation form - please select **CUSTOM PRINT** for this print method.
